## "My Dream Kitchen Has Come True!"

Says Mrs. J. D. Matthews of Leland

"Like every other woman, I'd dreamed of a kitchen both pretty and practical," reports this Cobb county housewife. "When we decided to remodel our old kitchen, I requested the advice of a Georgia Power home economist. Together we planned the kitchen I wanted."

Whether it's planning a kitchen or laundry, home wiring or lighting, our home economists are always glad to help. This is just one of the many extra ways in which we serve our customers. It is one of the many ways in which we try to be good neighbors and good citizens.

Last year our home economists made 43,342 visits in the homes of our customers, helping to take lots of work out of housework.

**NEVILLS METHODISTS ARE MAKING GREAT PROGRESS**  
The general progress committee of the "Town and Country Church Development Program" of the Nevills Methodist church met recently and made plans for the progress report to be sent to the state evaluation team soon. The committee was much pleased with the progress the church has made, and is expecting to make. It was evident that much good planning, thinking and working has been done by the people of this community toward a better church and community.

One of the best programs in the history of the church was presented in "Mother's Day" cover, gold the program was dedicated to all ladies in the community. All the families of the community paid tribute to their mothers and grandmothers by means of an attractive handmade printed bulletin with an attractive "Mother's Day" cover, gold lettered, and bound by red and white ribbon.

The program was jointly sponsored by the W.S.C.S. and the M.Y.F. groups. Rev. W. H. Ansley, pastor of the church delivered an outstanding and appropriate sermon dedicated to all mothers. Wylene Nesmith and Jan Futch sang a tribute to "Mother," with Judy Nesmith as pianist. A large crowd attended.

## Farm Bureau Activities

(By BYRON DYER)

Growing day lilies are fun and can be a remunerative hobby. H. W. Turner, local flower enthusiast who makes a living as an engineer, told the ladies in the Denmark Farm Bureau Tuesday night. Mr. Turner carried numerous kinds of day lilies along to illustrate how he went about breeding them up for various colors. Glenn E. Moore, specialist with the Bureau of Entomology and Plant Quarantine from Tifton, met with the men to discuss the possible infestation of sweet potato weevils. Mr. Moore pointed out that this pest is in some nearby counties and could be brought to Bulloch county by careless buying of plants or used crates. He urged that all potato growers procure certified plants. When this pest is found in an area, all the land within a mile of that infestation is put under a strict quarantine against planting sweet potatoes for a year. The potatoes are too bitter for food or hog feed when infested.

The Middleground Farm Bureau voted to ask the Bulloch County Singing convention to meet with them the first Sunday in September. J. L. Deal, who presided in the absence of their president Thursday night, instructed Clomer McGlamery to extend the invitation to the group.

Middleground cotton growers were urged to not wait too long to start their fight on insects this year. It was pointed out that there are several insects that do right much damage to cotton other than boll weevil and will knock off young squares before they are large enough for weevils to damage them. Leaflets on controlling cotton, corn, tobacco, garden and sweet potato insects were distributed to the group.

Barbecue suppers were served by Denmark and Middleground groups. The nine Bulloch county pastures entered in the state grazing contest were visited by the judges last week and final reports sent to Athens for the district judges' use May 20th and 21st.

## ANSWERS TO FORESTRY QUESTIONS FRONT PAGE

1. 284,983 acres.
2. 65 per cent.
3. Most woods fires in Bulloch county are caused by debris burning.
4. There are three lookout towers in Bulloch county.
5. The forest fire lookout towers are located at Nevils, Arcola and at Hill Top.
6. To report woods fires call 801-L, your County Forestry Unit headquarters.
7. More than \$600,000,000 yearly turns over from forestry and forest operations and industries in Georgia.
8. More than 166,000 Georgians.
9. Slash pine, longleaf pine and loblolly pine.
10. Pine seedlings can be ordered from the Georgia Forestry Commission at \$2.75 per thousand.

21. Ample rain during the spring has made the local pastures better than normal. The judges were well pleased with the condition of the cattle and hogs on the pastures visited and the amount of grazing found. W. H. Smith Sr. and E. L. Anderson teamed with the county agent to make up the farmer and fertilizer dealer representatives in the judging. They found the pastures good enough to recommend that those that are interested in good grazing take off time to visit some of the nine pastures while they are still good. Invariably the pastures had been well fertilized and were showing the effects of being well cared for. Reducing the acreage in grazing and increasing the fertilizer seems to be the answer to most of the problems of poor grazing. The nine who entered this year were Cecil E. Kennedy, E. S. Brannon, Sam Newville, R. L. Roberts, A. P. Murphy, C. B. Gay, Henry and Fred Blitch and Banks Dairy Farm.
